

Letter of Support for Bill Masters

The voting power of individual members of Lake Holiday Country Club, Inc. has effectively been taken away by our Board's unwillingness to enforce agreements.

Because our voting power has effectively been taken away, legal and political intervention is required to restore the proper functioning of our community.

The Board of Directors has ignored budgets, and the Treasurer has spent money without proper approval by the Board as required by our Bylaws. In a ridiculous waste of our dues money, over \$558,000 was spent on legal fees in 2006 alone, and this amount does not include over \$74,000 of legal fees paid during that same year for our then Association-owned Utility.

We plead to the Virginia State government, the Governor's office, the Attorney General, the Commonwealth's Attorney, the Frederick County Board of Supervisors, our elected officials, and our courts to investigate and help us fix problems that have plagued our community. We support the efforts of Bill Masters to raise the proper issues, and ask public officials and the courts to act to protect our property rights.

Our name below authorizes Bill Masters to present our Letter of Support to those he believes may address these issues and to place our name on a schedule of those signing this Letter of Support.
